📍 Casablanca

RÉSUMÉ

Aspiring Software Engineer with 2 years of experience in software development, proficient in C, C++, and full-stack development. Passionate about learning and solving complex problems, I have collaborated on projects that enhanced my understanding of system administration and web application development. Seeking a role where I can continue to grow my skills and contribute to innovative technology solutions in a dynamic environment.

ÉDUCATION

- **Computer Software Engineering**
1337 Coding School 📅 09/2022 - 06/2024 📍 1337-MED
 - Web
 - Unix
 - object-oriented programming
 - Network & system administration
 - Group & interpersonal
 - Graphics
 - Algorithms & AI
 - Rigor
- **High School Degree of Physics and Chemistry**
Taha Hussein 📅 2016 - 2020 📍 Casablanca, Morocco
 - French option

PROJETS

Transcendence

📅 08/2024 - 11/2024 📍 1337-UM6P

This project is centered around the design, development, and organization of a full-stack web application.

INCEPTION

📅 08/2024 - 09/2024 📍 1337-UM6P

This project aims to broaden your knowledge of system administration by using Docker. You will virtualize several Docker images, creating them in your new personal virtual machine.

IRC (Internet Relay Chat)

📅 07/2024 - 06/2024 📍 1337-UM6P

Create IRC (Internet Relay Chat) server in C++, fully compatible with an official client.

CUB3D

📅 08/2023 - 09/2023 📍 1337-UM6P

This project is inspired by the iconic Wolfenstein 3D game, the first FPS ever created. It allowed me to explore ray-casting, with the goal of creating a dynamic view inside a maze where players navigate to find their way.

Mini-SHELL

📅 06/2023 - 08/2023 📍 1337-UM6P

This project involved creating a simple shell, my own little bash. I gained valuable knowledge about processes and file descriptors.

LANGUES

English

French

EXPÉRIENCE

- **Club Manager**
Med Gaming Club - MGC
📅 10/2022 📍 1337-UM6P
🔗 <https://www.linkedin.com/company/med-gaming-club/>
The **Gaming Club** hosts tournaments and events, promoting teamwork and esports.

POINTS FORTS

- **Collaborative project skills**
Strong ability to collaborate on projects.
- **System administration skills**
Proficient in system administration using Docker.
- **Aspiring professional**
Dynamic and eager to learn.
- **C, C++**
Solved complex problems in C, C++.

RÉALISATIONS

- **Built IRC Server**
Created IRC server compatible with official client
- **Full-stack Development**
Developed full-stack application within 3 months
- **Project Leadership**
Led a team of 5 developers in a successful project delivery within deadlines.
- **Event Organization**
Organized and hosted 10+ gaming events, increasing club participation by 50%.
- **System Optimization**
Created and managed a Docker-based system, reducing deployment time by 40%.
